

Descargamos la última versión del IDE:

Download Eclipse Technology that is right for you

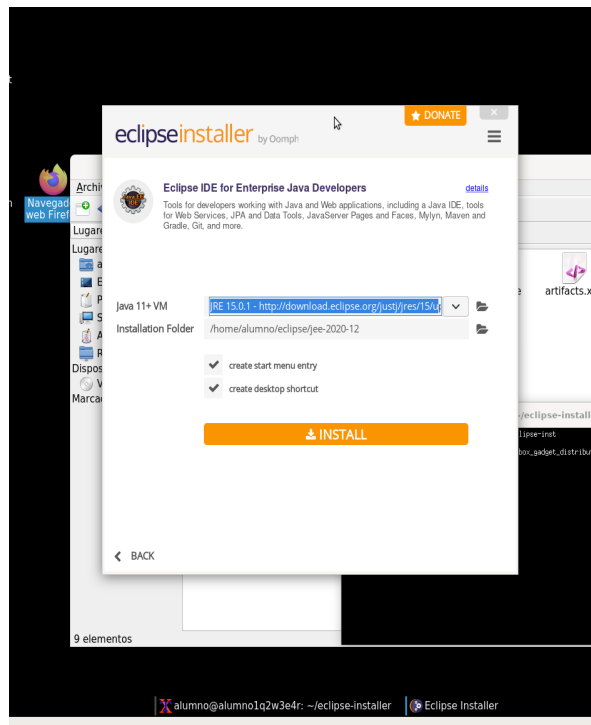

Elegimos durante la instalación la opción java EE: Enterprise java developers

En la siguiente pantalla elegimos el JRE que se quiere usar (puede incluso descargarse a la vez. Son las que aparecen con la opción como una ruta web: http)

Ejemplo:

Al final de la instalación entramos (creamos el workspace) y una vez dentro nos vamos al market:
help- → eclipse marketplace

Instalamos:

- spring tools
- Eclipse web developer tools

Posiblemente también es una buena idea instalar una consola para Git:

- gonsole

Ejemplo de una posible configuración de instalación del marketplace:

Eclipse marketplace

Select solutions to install. Press Install Now to proceed with installation.
Press the "more info" link to learn more about a solution.
